No. 14 I.

Note by the Chief Engineer for Irrigation.

The allotments for the Periyár Project works have been from year to year embodied in the Irrigation Budget, and all orders dealing with the works and transfers of funds connected therewith have been issued in the Irrigation Branch, although the execution of the works has been under the orders of the late Chief Engineer, Public Works Department. As the *personnel* of the Public Works Secretariat has now undergone a change, and the Project works themselves have nearly approached completion, it is suggested that all correspondence dealing with the Project should now be sent direct to the undersigned, and dealt with in the Irrigation Branch.

The same reasoning would apply to the estimates for the Harbour Canal, and their investigation and scrutiny, before execution in this office.
